* AVG indicates fewer than 16 plate appearances (2 PA per team game). Only AVG carries a qualification asterisk. OBP/OPS are estimates from H, BB and AB because historical HBP/SF/CI are incomplete. Unknown handedness is blank. Stolen bases carry forward only when verified; a dot means unverified, not zero. RBI omitted by design.

Game 8 player statistics were supplied without column headings. PA, AB, H and extra-base hits were mapped from the row structure; BB and SO remain provisional pending a headed box score.

* ERA indicates fewer than 2.2 IP (one recorded out per team game). Only ERA carries the qualification asterisk. Game 8 Perrett line provisionally interpreted as 6.0 IP, 4 H, 1 BB, 7 SO, 0 ER; confirm against the headed box score. Prior Game 7 pitcher-run discrepancy remains unresolved.

LINEUP & COACHING USAGE

• Joshua Hendricks remains the primary power source (4 HR); maintain opportunities with runners on base. Oscar Hargreaves supplied two hits against Sandringham and retains a strong walk profile.

• William Kent continues to provide contact consistency; Blake Mitchell remains a baserunning asset with six previously confirmed steals. New stolen-base events are not assumed from the unheaded columns.

• Brennan, Pietersz, Mcconnon and Chinn contributed hits in the 5–1 win, supporting lineup depth. Avoid treating one game as a stable batting-order trend.

• Taylor Perrett handled six innings in the latest supplied game. The provisional pitching line points to strong strikeout and walk control; confirm details before changing role recommendations.

• Continue emphasizing free-base prevention and first-pitch strikes across the pitching staff. Historical player ER/H/BB figures and the Game 7 run discrepancy warrant verification.
