TEAM TOTAL			27.2	28	9	9	31	2.93	1.34	10.08	2.93	

ERA asterisk only below one out per team game (1.2 IP through five games). New game pitching row was supplied without headings, so its mapping and derived rates are provisional. Previously verified Conor Myles throws left-handed; other unverified hands remain blank.

LINEUP & COACHING USAGE

• Waverley is unbeaten (5–0) with 58 runs scored and 11 allowed; the newest official ladder adds a 4–3 result. Do not equate this with a verified five-game individual-stat dataset.

• Cooper Busch, Damon Hill, Charlie Collins and Benjamin Fierenzi remain primary power/on-base concerns based on available cumulative data. Avoid predictable fastballs in damage counts.

• Oliver Dunn and Reece Longstaff contributed extra-base hits in the newest supplied rows. Prepare for aggressive baserunning, but do not infer new steals from ambiguous fields.

• Pitching preparation: Cooper Busch has a strong earlier four-inning outing; Kai Reum and Kynan Jones have the most established recorded workloads. Recheck their newest pitching lines against a headed scorecard.

• Melbourne should emphasize baserunner control, avoiding walks and limiting extra-base damage. Actual lineup positions and substitutions across five games are not fully verified.

NOTABLE HIGHER-LEVEL PLAYING EXPERIENCE

Conor Myles: University of Texas at San Antonio (NCAA Division I); pitched in 2025 NCAA regional clincher against Texas (Baseball Victoria June 2025)

Charlie Collins: Odessa College and Southeastern University; Melbourne Aces ABL debut reported in 2021; Team Australia U15 (Baseball Victoria)

Benjamin Fierenzi: Long Island University college baseball (listed as Ben Fierenzi; identity match to current player requires confirmation) (Baseball Victoria college players list)

DATA QUALITY

Official ladder five-game record, RF/RA and positions are verified from the supplied screenshot. New GameDay rows lack column headings; player-specific totals and classifications are provisional. The five named pitchers total 27.2 IP and 9 ER, an incomplete sample of five games. Missing pitching appearances remain unidentified. This may reflect human score-entry or reporting omissions, but the cause has not been confirmed; pitching totals and rates are not a full-season representation. Earlier dataset had four reported games and does not necessarily reconcile to the five official games. No missing games were fabricated.
